	Invoice date	Ascending							

Member installment transactions report used to link two member installment payment reports with different cut-off date. Installment and payment transactions between two member installment payment reports will be stated.

Cut-off date of first member installment payment report is the day before from date of report period.

Cut-off date of second member installment payment report is the to date of report period.

Other report criterias included invoice date, invoice number, member code and shop are used to filter the report content.
